

The JA-82R module

The JA-82R is a radio module designed for use within Jablotron's OASiS systems for transceiving signals of wireless devices. It can also be used within AC-8014 as a receiver for receiving radio signals from wireless thermostats. Follow the control panel or the AC-8014 installation manual for details.

JABLOTRON ALARMS a.s. hereby declares that the JA-82R is in a compliance with the relevant Union harmonisation legislation: Directives No: 2014/53/EU, 2014/35/EU, 2014/30/EU, 2011/65/EU. The original of the conformity assessment can be found at www.jablotron.com - Section Downloads.

Note: Although this product does not contain any harmful materials we suggest you return the product to the dealer or directly to the producer after use.
